Build more homes with solar panels and encourage businesses to have them

Solar power

Solar powered weed farm

More affordable energy

1 nuclear power plant to power the city + wind turbines

Power plant, and raising awareness

Don't make a huge warehouse at city limits

Free WiFi

Solar for sure, using the river in tandem with indigenous people for hydro power, consider nuclear energy.

Hamster wheels

Ban the HOA so we can have more energy

Start moving towards solar power or wind power

Starting to use solar energy

This isn't really a question kids would care or know how to answer

A solar plan for the whole town

solar energy

A brothel

Get rid of teslas

Higher bills

More recreational activities, solar panels!

Soup kitchen brotha

Clear brush

Solar panels that are cheap so everyone can get them

More solar power

Solar panels available and they pick up more energy.

Solar panels on public buildings

They can't our community is to poor for that I'm sorry

Update the business

Inspection

Offer more solar panels in public buildings

solar panels on new developments

Sleep more

Money

Solar energy

Using more solar panels

**BANN THE HOA** 

Build more homes with solar panels

Solar

solar panels

**Better Recycling** 

Lower cost

Don't change it

Sorry about everyone being rude

Spreed the house out more less apparently

You can't, growth and small-town don't go together however, you could build more houses outside the city limits I'd say create another area of La Pine so we would have like another city

More precautions need to be taken with the complaints

Where new house are being built

Construct a road to go around La pine and connect back onto the highway to limit traffic risk. Thank you for comir Less suburbs, more community events pls

Not compacting buildings in a small area

maintain the infastructure and not plowing down historical buildings to be a slave to capitalism quit adding housing and apartments, let the houses already on the market sell and be bought

Architecture

Have a annual limit of people who can move per year

More spread out rather than build upwards

Unfortunately it's probably not gonna feel like that's but have more events for the city

You can't, you are literally taking away our small town feel, the only reason why people want to co.e here is becau Keep all architecture in the small town feel

Keep the buildings small and stop cutting all the trees

Less apartments, and making houses outside of city limits

It shouldnt

No more dirt roads please

Have more community events and make sure to let people know about those events through social media or school quit adding more stores it makes people wanna leave bend to come to la pine to be in a small community but wit hometown feel in architecture — not super modernized buildings and make it look homey!

Expand distance of homes

Kick people out limit the amount of Californians coming in

Balance of bigger companies and apartments and also small businesses and normal houses, not too many building

Keep family owned businesses a priority

No big corporations, more small businesses

Keeping space between urban industry's.

**Buildings houses and stores** 

Each house needs to be 200 yards or more away from each other

Don't expand

Industrialisation is inevitable. We will end up like bend eventually people need to stop running from it

More business that are family run or privately owned

NO MORE PEOPLE

We need to grow and keep the community events

Be there for eachother having small business

Don't make it a small town

No apartments there are to many houses

Keep family owned businesses. We don't need more chain stores that do the same thing the businesses here alre-

NO BIG ROADS

I'd say not add on to much, maybe a few restaurants and that's it.

Keep it like sisters, keep a theme, prioritize small local businesses

Keeping the houses looking cozy and cute like cabins and no apartments

Modern transportation while still using less modern buildings

Let it grow into a big city so we have more opportunities in La pine

Stop building apartments/ houses

ban the HOA

LEAVE THE NATURE ALONE

Community garden and community gatherings

Move houses away from 97

Expand outward rather than crowding the central city

**VERY FEW APPARTMENTS** 

To many Californias

Less homes

make new development look less industrial

Stop building so many houses

Older people should stop abusing there power

No more urban growth

Community events

No
